

FIFES, FLUTES AND DRUMS

CONVENTION OF STATE ASSOCIATION TO-DAY.

To be held in Meriden—Large Attendance Expected—Common Council to Review Parade—The Program.

Meriden, Aug. 27.—The tenth annual convention of the Connecticut Fife, Flute and Drum Corps association will be held in this city to-morrow at Terrace Garden. Meriden has been fortunate twice in having the meet held here. About seven years ago the first one was held in this city. The executive committee has made extensive preparations to entertain the visiting musicians.

President P. F. McGoldrick said to a Republican reporter this morning that forty corps are expected, and all will turn out in the parade. They will begin to arrive here on the morning trains and those outside of New Haven and Hartford counties will be later, but in time for the parade. The visitors will be met at the depot by the local reception committee and escorted to the city park, where the formation of the parade will be made. At the request of the executive committee Mayor Cog gave orders to Chief Ford for a police escort. Orders are posted in the station house for the following officers to turn out: Sergeant McGovern, Patrolmen Lewis, Grady, Thayer and Burke.

The line will leave the park at 9:45, marching from there to Camp street, to Center, East Main to town hall, where the common council will review the line; town hall to West Main, to Colony street, to Drew street, where the counter-march will be made to Withthrop square, where the entire corps will consolidate and render two selections, after which the line will start for West Main street to North First, South avenue to South Third street, to Hanover street, to Terrace Garden, where the convention will be held. Before the exercises begin at 1 o'clock one hour will be devoted to dinner.

The afternoon program begins at 1 o'clock when the Father Matthew Drum corps of Hartford and the St. Aloysius corps of Waterbury will contest a tie for first place that occurred at the last convention held in Waterbury last year.

The order of exercises is as follows: Competition for prizes in ancient and modern drumming; flute and drum band; drums without fife; fancy drumming; individual drumming and individual solo playing. The following musicians have been selected as judges: Leader McDonough of the Wallingford National band, Alexander Hart, cornetist in a local band, and Farrell Fitzpatrick, ex-musician of Company I. The results will be announced in the town hall in the evening. Supper will be served at the garden.

TENTH ANNUAL BALL.

The tenth annual ball given by the association will be held in the town hall after the day's exercises, beginning at 8 o'clock prompt. The opening number will be the baton contest, followed by a fancy drill by the corps. The Father Matthew corps of Hartford, which is considered the best drilled corps in the association, will give an exhibition. Dancing follows, with music by Flynn's orchestra and Professor Kennedy prompting.

The officers in charge of the affair are as follows: Association officers—President, P. F. McGoldrick of Meriden; vice president, John W. Tynan of Waterbury; secretary and treasurer, William F. Morris of New Haven.

Committee of arrangements or executive committee—P. F. McGoldrick, chairman; B. J. Kennedy, secretary; M. J. Fitzgerald, business manager and treasurer; C. F. Glaspi, G. W. Kennedy, M. J. Fay.

The dances are dedicated to the following: President P. F. McGoldrick, "Visiting Corps," "Barrel of Fun," "Hank On," "Fighting Four Squares," "Our Judges," "Mayor Cog," "Association Secretary and Treasurer," "Vice President," "Our Lady Friends," "Merchants," "Common Council," and "Professor Barnell."

A REWARD OF \$500

Offered for the Recovery of "Imman's" Body. New York, Aug. 27.—Not a trace had been found up to 12 o'clock to-day of Robert W. Imman, Jr., of the firm of Imman, Swann & Co., whose yacht Adelaide was run down last night by the Perseus of the Iron Steamboat company's line.

Mr. Clark of the firm of Imman, Swann & Co. has offered a reward of \$500 for the recovery of the body.

The crew of the Adelaide went to the scene of the disaster this morning to drag for Mr. Imman's body.

Everything seems to point to the conclusion that Imman was drowned, but it may be that Mr. Imman is alive and that for some unknown reason he is not yet prepared to show himself and give the full facts of the disaster.

NEW HAVEN TRAIN'S ESCAPE.

Narrowly Escaped a Collision With Stalled Cars—A Tramp Wanted to Dis-His Engineer of H. R. Road Train Stops His Train and Saves His Life—New Haven Express Train Comes Whizzing By.

New York, Aug. 27.—A few moments after the northbound local train on the Hudson River railroad left Morris Heights at 8:20 this morning, the passengers were startled by a shriek of the whistle, the clanging of the engine bell and the grinding noise of the brakes being set hard down. The train came to a standstill with a jerk, and threw half the passengers out of their seats. Heads went out of the windows, and many of the more excitable of the passengers, thinking a collision imminent, crowded out of the cars. There was no other train in sight, but just in front of the engine was an excited group.

The cause of the stop was only a ragged tramp who refused to get out of the way of the engine, and who was being roughly hustled away by the engineer and a policeman.

Switchman George Taylor saw the tramp come out of the bushes and take his stand in the middle of the track, as the train approached. Taylor shouted, but the man did not even look up. He paced slowly up and down.

Policeman Pierson of the High Bridge police station, who was riding in Jerome avenue, saw the tramp also, and putting spurs to his horse shouted, "Get off the track. The train is coming." The tramp made no motion to obey. The rumble of the train grew louder, and when Pierson reached the track it was too late for him to attempt to force the man away. Switchman Taylor saw only one chance to save the train's life, and he shouted to Pierson, "I'll switch her off."

Up went the signal for the engineer to slow up, and he answered with a shriek of the whistle and put on the brakes. At the same moment Taylor sprang to his lever and closed the switch so the train would run into the switchboard track, which it did, coming to a stop within twenty feet of where the tramp stood.

The danger signals for two miles north were set, and a southbound local was stopped half a mile ahead of the blocked train. There was a good deal of swearing by the policeman and railroad men and the passengers, and the tramp was dragged from the track to the switch tower, where he was kept until the patrol wagon arrived. There was a delay of five minutes before the local could be backed off and the switch could be opened, and just as it was accomplished a southbound New Haven express whizzed by.

Had there been five minutes more delay there might have been a collision and a score of lives sacrificed to save a tramp who wanted to die. The cool nerve of a switchman and an engineer averted the impending danger.

In the Morrisania court the tramp presented a pitiable sight. His clothes were only a pair of worn shoes and pants, a coat full of holes and a straw hat. He said his name was Patrick Haggerty, thirty years old, and that he once worked in "The White Elephant." He said he had been living in the woods for a month on whatever he could get to eat. The instinct of self preservation, strong even in his extremity, prompted him to deny the charge made by the policeman, but in spite of it he was committed to the island.

GRACE AND EPWORTH CHURCHES

Have a Union Excursion to Pawson Park To-morrow.

On Thursday, August 29, will occur the Sunday school excursion of the Grace M. E. church and Epworth M. E. church to Pawson park. The boat will leave Belle dock at 9:30 a. m., and proceed to Pawson park, and will leave there again at 3 for a two hours' sail around the Thimble Islands and Faulkner's light. This should make a very pleasant day's outing, and a large and pleasant gathering is expected. It is the intention to make this a general Methodist excursion for all the churches.

NORTH HAVEN.

Aug. 27.—Rev. H. W. Pope of New Haven interested the people of the Congregational church in his work as one of the secretaries of the International Society of Christian Workers Sunday morning and evening. The quartet were in their places with an alto singer from New Haven in the morning and Mrs. Etta Rudd, a guest of Mrs. J. W. Tuttle, as alto at the evening service.

Ralph Nye of Springfield is the guest of his schoolmate, Leslie Munson.

Mr. and Mrs. Will Mansfield and Miss Emma Marilgh spent Sunday in town with Miss Edith Smith and Miss Mattie Leete.

Mr. Derby of New Haven is doing much work repairing tombstones in the Center cemetery, and gives good satisfaction.

Two bicyclists left New York last Saturday and reached North Haven Center at 8:30 on Sunday morning. A young man was riding each wheel.

The adjourned annual school meeting of district No. 4 will be held next Monday evening, September 2, to consider the advisability of paying a tax to pay a part of the whole of the indebtedness of the district.

Miss Harriett L. Tuttle, daughter of Lewis Tuttle, was buried in the cemetery in the Center on Monday, the 26th. Rev. Mr. Lathrop conducted the service. She was twenty-four years old and died of consumption. Many friends extend sympathy to Mr. and Mrs. Tuttle in their sad affliction.

Mrs. W. P. Lee closed her visit with friends in Deerfield, Mass., last week and is spending the present week in East Hampton with Miss Olive Farrar, an old schoolmate, who is held in pleasant remembrance here by those who were so fortunate as to have made her acquaintance during her stay at Mrs. Lee's last winter and on previous occasions.

A grandson of our former townsman, Robert Wallace, from Wallingford, rode down on his wheel Sunday and drank of the health-giving waters of the pool.

RESCUED ON THE DEEP.

From a Sinking Barge—The Tons' Crew Saved by the Steamship Georgia—Taken Off in a Lifeboat—The Largest Freighter Afloat Arrives at New York on Her Maiden Trip.

New York, Aug. 27.—The new White Star steamship Georgia, the largest freighter afloat, arrived from Liverpool on her maiden trip last night and anchored outside the bar. She came up to Quarantine early this morning, when it was learned that in addition to her other claims to distinction she had rescued the crew of a sinking bark under circumstances highly creditable to her officers and men.

The bark was the German vessel, Toni, Captain Suhr. The Toni with twelve men sailed from Miramichi on August 9 with a cargo of deal for Ipswich, England. On August 19, after leaving the Gulf of St. Lawrence, the vessel sprung a leak. The water gained steadily in spite of all the efforts of the crew to keep her free with the aid of the pumps.

As it was evident that nothing could be done to save the vessel, it was decided to abandon her at the first opportunity. Signals of distress were then hoisted and a torch kept burning at night in the hope of attracting some passing vessel. Shortly before midnight on August 23, when in latitude 44.3 and longitude 53.5, the Georgia sighted the signals and bore down to the bark.

The Georgia's officers were unable to make out what the bark wanted, but Captain Smith lowered a lifeboat and sent it away in charge of the second officer, with orders to take off the crew of the bark, should they desire to leave the vessel.

There was a strong northwest wind blowing which kicked up a heavy sea, but the lifeboat's men succeeded in safely transferring the distressed seamen to the steamship. The Toni was left to her fate, which her captain thought would be a plunge to the bottom before very long. She hailed from Danzig, registered 463 tons, and was built in 1867.

Considerable interest has been manifested in the Georgia's maiden trip. Her tonnage is 10,077. Captain Henry Smith, late of the Cufic, is her commander. She left Liverpool on August 16 and Captain Smith decided not to push her on her first voyage, particularly as it was found that she did not steer readily.

Aboard the Georgia was Mr. Richard Crocker's horse Alan, a valuable full blooded stallion. Alan stood the trip well and was in prime condition when he arrived here. He was in charge of Trainer Simon Peter Anderson.

BOARD OF HEALTH.

There was a meeting of the board of health at their offices in the city hall yesterday afternoon, with Mayor Hendrick in the chair. The principal business of the meeting was the action upon the application of Mrs. Vaughn of 45 Stevens street to conduct a maternity hospital.

The matter came over from a former meeting at which a committee had been appointed, of which Dr. Fleischer was chairman, to inquire into the suitability of the applicant for the business. Dr. Fleischer stated that the committee had made a thorough investigation and found no good reason to refuse the license. There had been outside talk of the unfitness of Mrs. Vaughn to conduct a lying-in business, but none of the objections had appeared before the committee and therefore a license was recommended. The license was granted by a unanimous vote of the board.

In regard to the nuisance on the Costello property at the rear of the Forsyth drying works on State street, the board agreed to adhere to their former action and leave the matter to the city attorney for investigation.

LARGE TRACTS OF LAND.

BRITISH ATHLETES OFF.

Cambridge and London A. C. Men Start for Liverpool—Anania Will Bring Them Here—The Cambridge Men Due in New Haven Next Week.

London, Aug. 27.—A small crowd of enthusiasts were present to witness the departure of the Cambridge university team and the remnant of the London Athletic club team at 11 o'clock this forenoon from Euston station. The special train which took them also carried the rest of the Anania's passengers to Liverpool, whence they will embark for New York.

The carriage which was reserved for the athletes was decorated with the colors of the London club, the Stars and Stripes and the Union Jack. The decorating was done by Mr. Wilkie, the manager of Low's Exchange.

Mr. Wilkie and Mr. Holman, the London athlete, accompanied the team to Liverpool, but the latter gentleman will not go to America, being prevented by business engagements from doing so.

Luytens and Fitzherbert appeared to be in splendid condition. Luytens said just before starting that they meant to win, the Cambridge men all being fit. Holman made a similar declaration regarding the condition of the London men.

Mr. R. R. Dennis, William Van Benthusen, Andrew Squire and Mr. Alvanus of New York were on the platform together with several well known English athletes to see the men off, and wish them good luck. Mr. Herbert, secretary of the Amateur Athletic association, will sail for America on the steamship Gallia for Boston and E. J. Wilkins and Sid Thomas will perhaps accompany them. Fry and Menro have finally decided not to go.

There is much disappointment over the many defections, but nevertheless the teams are in good spirits and determined to make a strong fight with the American athletes.

THE RED, WHITE AND BLUE.

Another Star for the Old Flag. Washington, Aug. 27.—Another star, the forty-fifth, is to be added to the flag. The new star will represent Utah, and the order for its addition to the national colors was issued by Secretary Lamont to-day. The star will be placed to the right of the fourth row from the top.

The order provides for the new colors to be issued to all infantry, artillery and the battalions of engineers and also for new standards for all cavalry. The new flags will be very handsome. They are to be made of the finest American silk and their cost will be quite considerable.

Utah will not attain statehood until the fourth day of next July, but all the flags heretofore contracted for and issued will contain the star heralding the admission of that territory into the Union of States.
